THE INQUEST.

Jury Puzzled Over Suicide of Mrs. George Davidson.

The coroner's jury on the case of Mrs. George Davidson will finish its work today. A week ago Mrs. Davidson took her baby in her arms and threw herself into the St. Joseph river. The finish of the coroner's inquest has been postponed from time to time on account of the claim of Mrs. Davidson's relatives and friends to the effect that she was driven to suicide by the conduct of her husband. The verdict of the jury will depend somewhat upon the testimony of Mr. Davidson which will be taken tonight. The verdict is being looked forward to with considerable interest.

HEIR TO \$60,000 EACH

Three Benton Harbor People Remembered in the Will of a Rich Chicago Uncle.

PROPERTY ALL IN REAL ESTATE.

Mrs. Bert Nowlen, Thomas and Susie Hagaman Heirs to a Large Fortune.

Mrs. Bert Nowlen, Thomas and Susie Hagaman of this city are three of twelve persons who have fallen heir to an estate valued at \$750,000 or over \$60,000 each.

Three years ago Benjamin M. Hagaman, of Chicago, died. He left an estate valued at three-fourths of a million dollars. The use of his property was willed to his wife as long as she lived and then it was to be equally divided between eleven nieces and nephews and one adopted daughter. Last November Mrs. Hagaman died and the property has fallen to the beneficiaries of the will.

As the estate carried with it but little money the heirs have not yet received their portions. Real estate at this time cannot be converted into money at good advantage and the division of the property will consequently be postponed. The property includes Chicago real estate on State street, South Water street, East Madison street, the Masonic Temple at Fargo, N. D., and 6,000 to 7,000 acres of land in the Red River valley in North Dakota.

Mr. and Mrs. Nowlen were called upon by a NEWS reporter this afternoon and verified the story as told above. Congratulations over the fortune of the three Benton Harbor heirs are in order.

LEE IS IN DISFAVOR.

Spain Wants Him Recalled from Havana and Puts in a Request to That Effect.

PROMPT REFUSAL BY M'KINLEY.

Also Denies Another Request That Food for the Cuban Needy Be Sent by Other Than Warships—Reason Why Lee Is Not Liked by Spaniards—Causes of Irritation at Havana—Gen. Sickles Says Spain Is Within Her Rights in Both Matters.

Washington, March 7.—The Spanish situation developed two new phases yesterday when it became known that the Spanish government had formally requested the recall of Consul General Lee from his post at Havana, to which request the United States had courteously but firmly refused to comply; also that the Spanish government has suggested the propriety of relief supplies to the Cuban reconcentrados on the cruiser Montgomery and gunboat Nashville, to which suggestion the United States had given a like answer in the negative.

The first intimation of these steps came in a brief and explicit cable dispatch from Madrid. Prior to its receipt, however, the authorities here had been fully conversant with the facts, although no intimation had been allowed to get to the public on either subject. The disclosures from Madrid left no further ground for reticence in Washington, and after a conference at the White House between the president, Assistant Secretary Day and Secretary Long the following authorized statement was handed to the Associated Press by Judge Day, as comprising everything that was to be said by the administration on the subject.

Will Not Even Consider the Request.

"The president will not consider the recall of General Lee. He has borne himself throughout this crisis with judgment, fidelity and courage, to the president's entire satisfaction. As to the supplies for the relief of the Cuban people all arrangements have been made to carry a consignment this week from Key West by one of the naval vessels, whichever may be best adapted and most available for the purpose, to Matanzas and Sagua." Beyond the foregoing those who had participated in the conference at the White House would not discuss the subject, and it was stated positively that the authorized statement comprised everything that would be given to any one. The advice from Madrid, together with the authoritative statement here, left no room for doubt as to what had occurred. The request for General Lee's recall is understood to have come within the last few days. It came through Minister Woodford, a somewhat unusual procedure.

Lost No Time in Replying

The other suggestion of the Spanish government—that relief supplies should not be sent in war vessels did not come through Minister Woodford, as the Madrid dispatches state, but was presented by Senator Rose to the state department last Friday. The responses in both cases went direct to Minister Woodford. There appears to be no reason why a change should be made in the plan for sending these ships on the relief mission, and without attaching grave significance to the request of the Spanish government the answer was made that the plans for the trip were completed and that the stay of the ships would be brief and of the most pacific character. In responding to the request for General Lee's recall, after a brief exchange between the White House and the state department, the negative answer was dispatched by the president to Minister Woodford. Such matters as these are generally laid before the cabinet and freely discussed, but in this case there was nothing of that kind. The whole matter was "expedited."

WHY LEE IS PERSONA NON GRATA.

Spaniards Do Not Approve of Either His Words or Actions.

The grounds on which General Lee's recall was asked are not officially disclosed. It is known, however, that the Spanish government has chafed for some time over General Lee's presence in Havana, although this had never taken the form of a definite protest prior to the present time. It began to assume a more serious aspect shortly after the arrival of the Maine at Havana. At that time General Lee escorted Captain Sigbee on his round of official calls. These were made with due formality, but the Spanish officials took offense when their calls were restricted to General Blanco, Admiral Manterola and the representatives of the military (Continued on page 6.)

CRISPI'S ENEMY DEAD

Man Who Pursued the Italian Statesman Gets a Rapier Thrust in the Jugular.

GIVEN BY ANOTHER JOURNALIST.

Duel Takes Place Near Rome with Swords and at the Third Assault the Italian Poet and Politician Falls—Crispi Will Now Feel Relieved, It Is Said—How the Dead Man Made War on Crispi When He Was Italy's Prime Minister.

Rome, March 7.—Signor Felice Carlo Cavalotti, poet, dramatist, publicist, and the well known radical member of the chamber of deputies for Cortina, was killed here yesterday afternoon in a duel with swords with Signor Macola, member of the chamber of deputies and editor of The Gazzetta di Venezia. The encounter was the outcome of a press polemic in the columns of the Milan Secolo and The Gazzetta di Venezia. It took place at an unfrequented spot outside the Porta Mag-

EX-PREMIER CRISPI

giore. Senor Macola's seconds were the deputies Signor Guido Fusinato, a professor at the University of Turin and member for Feltre, and Signor Carlo Donati, advocate, and member for Lonigo. Signor Cavalotti's seconds were Signor Bizzoni, the publicist, and Signor Tassi, member of the chamber of deputies. Shortly before the meeting Signor Cavalotti seemed in excellent spirits and even joked with his seconds. When the word was given he attacked his opponent vigorously.

Macola's Rapier Pierces His Jugular. The first two engagements were without result, but in the third Signor Cavalotti received a thrust in the throat that severed his jugular. At first it was thought he was only slightly injured, but the gravity of the wound was soon perceived on his putting his hand to his mouth. He withdrew it covered with blood and could not utter a word. The doctors and his seconds carried him to Zellino and laid him on a bed in the residence of the Countess Colles (Collare). Tracheotomy was performed, and artificial breathing attempted, but all efforts were useless. Signor Cavalotti expired in ten minutes without speaking again. Signor Macola did not receive a scratch. The news on reaching the city caused a great sensation. Numerous deputies and friends hurried to the spot, and there is universal regret over the tragic end of Cavalotti.

He Made War on Crispi. Felice Carlo Emanuele Cavalotti, who was a member of a family originally Venetian, was born at Milan, Nov. 6, 1842. At the age of 18, having become already noted for his poetry breathing hatred for Austria, he threw himself with ardor as writer and soldier into the struggle for Italian independence, taking part in various expeditions and publishing in the newspapers of the day articles and verses whose revolutionary audacity attracted wide attention. His fame, however, will rest probably in the persistent war he made on Crispi, the Italian statesman. He first charged Crispi with trafficking in decorations. The matter got into the courts and the proceedings, with various modifications, were continued until the court of cassation recently transferred the whole matter to parliament. Pending this decision, however, Signor Cavalotti proposed the impeachment of Crispi, then fallen from power, for the disasters in the Abyssinian campaign. To the last he relentlessly pursued Crispi, and the latter, in the death of his brilliant and fearless adversary, will probably see the end of the long campaign against him.

TWO MEN ROASTED ALIVE.

Their Shrieks Came Up Out of a Mine to Their Fellow Workmen. Denver, March 7.—A special to The News from El Paso, Tex., says: News has reached here that the Santa Domingo mine, in the Santa Eulalia district, fifteen miles southeast of Chihuahua, was burned Thursday night. At midnight the shift of 500 men went up the shaft to eat lunch, leaving two of their number on watch down on the 1,400-foot level. When the workmen started to return to their work they found the mine on fire and the shaft full of smoke.

They could hear the shrieks of the two watchmen who were being roasted alive. The mine was heavily timbered throughout and only the caving in of the mine extinguished the flames. The loss amounts to \$50,000 and it will be twelve months before the mine can be again opened.

Dogs Chased Him Up a Tree. Whitehall, Ills., March 7.—Phillip Brantzel ran Pearl Jackson (colored), aged 15, up a tree after a three miles chase with bloodhounds just east of this city, made him prisoner and landed him in the county jail at Carrollton. Jackson shot and killed Fred Douglas, a colored boy of his own age at Roodhouse. Jackson admitted the killing, but declared it was accidental.

National G. A. R. Camp. Cincinnati, March 7.—The local committee of arrangements for the national encampment of the G. A. R. which meets here early in September has selected Chester park for the tented camp and named it "Camp Sherman."

She Married Him.

"The most amusing nuptial event I ever officiated at," said good old Squire Hiram Cate to a representative of the Louisville Post, "the marrying magistrate of the Penyrilla," now dead, "was in the winter of 1871. I was awakened one cold night about midnight by vigorous knocking on my front door. I went to the window and by the light of the moon could see two forms on my front porch. I raised the window and asked what was wanted. A woman of the backwoods type answered in about this language: 'Why, hit's us. Jim an me wants to git hitched.' I hurried down and on opening the door found a poorly clad, finicky looking man of about 40, led by a determined looking woman of perhaps 30. I could see that the female was the business part of the procession and addressed myself to her, asking why they had chosen such a late hour for their 'hitching affair.' This was the reply, in quick, snappy sentences: 'Why, hit's this way. Jim Owens is bin a-sparkin' uv me, I 'low, for fo' yeres, an I got fatched tired uv his mincin words, so tuk an ast him tonite, I him, I did, I 'pected him 'votely, an ef he wanted me to cum on an le's git j'ined tonite, er I wuz gwine to tuk Fletch Bogges' boy, Hez, an settle down. Jim 'lowed—'dodid—he reckined he'd cum, though it wuz a long trip. So I took an fatched him in pap's mill waggin. Didn't I, Jim?' Jim nodded a doleful assent. In answering the questions I put to the groom in the ceremony the brawny better nineteenth gave the bashful spouse about the cue, and she paid me a half dollar, taking the money from Jim's pocket-book. It beat any wedding I ever witnessed, I think."

A Hasty Judgment.

"I hate intoxicated people," whispered a good looking young lady to a companion on one of the Larimer avenue cars the other evening. A man had boarded the car at Atwood street. He staggered along the aisle and finally managed to get hold of a strap, to which he clung in order to steady himself. "You're right," answered the one addressed; "the conductors ought to keep them off the cars."

Meanwhile the man was changing his hold on the strap from one hand to the other. He looked down, with his eyes half closed, and when some of the passengers wanted to leave the car he seemed to pay no attention to them, for he did not move out of their way. At the Larimer avenue bridge the car came to a stop. The man seemed to realize that he was at his destination, for while he had not motioned to the conductor he began to go toward the door. The conductor helped him out and after seeing him safely on the sidewalk returned to his car. Turning to a passenger who had been an interested spectator, he said: "Isn't it a pity to be blind? That gentleman lives in the house on the corner, and I take him home every evening."

The two young ladies looked at each other in embarrassment, for the conductor had spoken loud enough for everybody in the car to hear him.—Pittsburgh Chronicle-Telegraph.

CALVIN A CRUEL MAN.

Rough Estimate of His Character and Work by Rev. George A. Sahlin.

ANNUAL MISSIONARY MEETING.

Rev. Dr. Brooks Preaches on "Dr. Jekyll and Mr. Hyde" With Applications.

In his series of sermons on old Christian heroes Rev. George A. Sahlin at the First Universalist church last evening unmercifully scored John Calvin, the founder of the Reformed church.

He was called the "Napoleon of Theology," and the doctrines he taught were pronounced to be cruel and wicked. But one point in the doctrinal teachings of Calvin was touched, the teaching that before the world was formed that God had selected certain persons yet unborn to be saved and others to be damned; that the person born to eternal punishment ought to rejoice that through sufferings in the world to come he could thus contribute to the glory of God, as some were saved for the glory of God and some condemned for the same purpose. Calvin often declared himself to be a man of peace, but the pastor said he did not teach peace, but eternal warfare.

"My friends," asked the speaker, "if Calvin was right, if some were born to be saved and others born to be lost why was it necessary that Jesus Christ must come into the world to suffer the torture on the cross, if some would be lost and some saved anyway?"

Calvin's part in the death of Michael Servetus, who was burned at the stake because he was a heretic, was heartily condemned, and the great reformer was painted as a cruel and bloodthirsty man. He had but few friends and was a man of violent passions.

SUNDAY—

Sunday Schools Discuss Its Observance...

The Sunday schools of the city, using international lessons yesterday studied Sabbath observance. The lesson was taken from the scriptural account of Christ and his disciples plucking corn and eating on the Sabbath day. What to do and not to do on Sunday was discussed in many of the classes. Many teachers were pined with the questions whether it was right to ride a wheel on Sunday. One teacher said it was in certain cases while in other cases it was wrong. Dr. Eigumbe of the college was held up before one of the classes who made proper use of the wheel on Sunday. He rides a long distance from church and rides his wheel only to go to God's house. Such use of a wheel God will not condemn, said the teacher.

George F. Sonner, superintendent of the Congregational Sunday school, made a short address on the subject of observing the day. He declared that the day could be spent best in doing good. By extending help to those who needed it God's blessing could be commanded.

Dr. Brooks said that he had lived in Benton Harbor about two and a half years and he had found here several who lived the double lives of Dr. Jekyll and Mr. Hyde.

TWO FACES—

Dr. Brooks Speaks on Dr. Jekyll and Mr. Hyde.

Dr. Brooks, pastor of the First Congregational church, last evening took for his text the weird story of Dr. Jekyll and Mr. Hyde. He gave an excellent review of the book and followed with the practical application of the lessons to be learned from the story. That all of us have the two faces at work within us and each time that we allow the evil nature to score a triumph we have lost a certain amount of the Dr. Jekyll part of us. The talk was exceedingly practical.

Dr. Brooks said that he had lived in Benton Harbor about two and a half years and he had found here several who lived the double lives of Dr. Jekyll and Mr. Hyde.

HARD TIMES—

Returned Missionary Says We Haven't Them...

The annual meeting of the Women's Foreign Missionary society was held in the Methodist church last night and was attended by a large congregation who listened with much interest to Miss Deline, a returned missionary, who for nine years labored with the heathen of India. She spoke of the Hindu belief, that of transmigration, that is, that when one dies the soul goes into some other animal. If one has been good, according to this teaching, the soul will enter into some good animal but if on the other hand one has been wicked, the soul may enter into a snake, dog, or some lowly animal. A mother who loses her baby by death does not know what its soul is in the body of a kitten.

Miss Deline gave some startling figures which made even the ladies of the local missionary society wonder. She said that in China there was one billion heathen and there was but one missionary to every million, while in America there was one minister to every 700 people. She said that out of every dollar that was raised for missionary work in America 98 cents were paid in this country and two cents were paid to the foreign work.

The speaker carefully looked over

her audience and said: "You say hard times and you really think you are seeing them, but have you starved, have you lived on a few spoonfuls of rice a day for years, just enough to keep life in you? Why my friends you know nothing of hard times. \$2 a month in India will support a whole family for one month."

She closed her address with an earnest appeal for a liberal donation for the foreign missionary work. While the collection was being taken Fronia Gridley, a child with a remarkably sweet voice, sang a solo.

The collection for missions following the address was the largest collection of the kind ever taken in the church.

Human Magnets.

Experiments made recently by scientific men in France, says the London Standard, have developed a somewhat curious and unexpected fact—namely, that certain persons possess a magnetic polarity—that is, they are found to act after the manner of magnets, having, in fact, north and south poles. In such a case the individual, on being completely undressed and placed near a sensitive galvanometer, will, when turned on a vertical axis, cause a deflection, first in one direction and then in the opposite, just as a magnet will do. It is not assumed that all persons possess this polarity, but in the case of Professor Murani, an Italian, upon whom the experiment was tried, the phenomenon was unmistakably exhibited, it being found that his breast corresponded to a north pole and his back to a south pole.

A Question of Trimming.

Shortly after the war a Confederate veteran visiting a northern city observed on a street corner a cripple who was without legs and arms, which he had lost, according to the sign, in the "late war." The Confederate at once gave him a quarter and passed on, only to come back and give him another. A second, third, fourth and fifth time the donor returned, giving the cripple a quarter each time until the latter asked the reason for this unusual generosity.

"Why," replied the Confederate, "you're the first one of those d—d fellows in blue I have seen trimmed up to suit my taste."—New York Post.

STATE THE MASTER.

Governor Pingree Relates Some Michigan Railroad History in His Last Speech.

OWN ONE-THIRD OF STATE

And Yet Railroad Companies Pay But One-Twenty-Sixth of the Tax.

Governor Pingree in his speech before the University Republican club at Ann Arbor March 4 among other things said:

A little over fifty years ago the United States gave to the state of Michigan an immense quantity of public lands. It gave to the state, to aid it in building railroads and in draining swamps, many millions of acres. It allowed the state to give to railroads six sections of land for every mile of railroad that should be built. It also gave the state all of the swamp land that it possessed, so as to enable the people who might settle in different parts of the country to drain the swamps and make healthy and comfortable homes for themselves. At that time we had less than half a million of people. The public lands which we received from the general government were covered with the richest growth of oak and pine and hardwood, and had under the surface untold wealth in iron, copper and even gold.

We have given away all of these lands. We have given to two railroads stretching from the southern line of the state through the lower peninsula, six sections of land for every mile of road built. We have made the same donation to three railroads running across the state from Lake Michigan to Lake Huron. In the upper peninsula we were even more generous. We gave to the railroad company that built a line from the Straits of Mackinac to Marquette, sixteen sections of land for every mile of road built. Some of these lands covered the richest iron mines in the state. Some of the iron mined in these lands capitalized now as high as fifty millions of dollars each.

The companies which received these enormous gifts from us agreed at that time that they would pay to the state, in consideration of these lands, one per cent upon the value of these roads when completed, and that in addition to this the state might, at any time after ten years, require them to pay two per cent upon their gross earnings. They were not satisfied with these gifts but came to the legislature and by means of corrupt methods got their lands exempted, some of them for ten years, some for as long as sixteen years, and others for even a longer period. While these lands were being held without taxation they were stripped of their timber and much of their mineral wealth. Many of the lands, when the term expired for which they were exempted, were abandoned and have never returned a penny in taxes to the state. The taxes which they agreed to pay upon the cost of their roads have never been paid. They have applied to the legislature from year to year and obtained laws by which they have been exempted from keeping their contract. The law requiring them to pay one per cent upon the cost of their roads, has been repealed, and in many cases they pay even less than two per cent upon their gross earnings. The result of it all is that the state has been shorn of its wealth, so that at the end of half a century, it is not worth one-half what it would have been had the timber been allowed to stand. Not only has the state lost largely by the transactions, but the actual settlers, who have come in to make home, have been charged more than five times the actual value of the lands, all of which has gone into the treasuries of these companies.

We are today engaged in a death struggle with these corporations. They have become our masters. The railroad companies today own about one-third of all the property of the state. They pay about one-twenty-sixth of the taxes. They charge our people exorbitant rates. The officers of railroad companies receive salaries many times greater than the officers of the state. The attorney general of the state is compelled to perform the duties of his office for \$800 a year, while railroad lawyers draw as high as \$20,000 a year. We have the power to partially correct this abuse. The supreme court of the United States has decided that the state is still the master.

We may compel the railroads to pay their share of the taxes. The only difficulty in the way is in getting the right legislature to do it. No man should be elected to the legislature who does not in advance positively pledge himself to vote for a law which will tax all property alike. We are not asking the railroad companies to pay more than their share. We simply ask them to pay the same percentage on the valuation of their property that the farmer and the mechanic and the merchant are compelled to pay on theirs.

15,000 Packages to be Given to All Who Apply—John A. Smith and His Remarkable Rheumatism Cure.

THE FIRST TEST AND WHAT IT LED TO

Cured Himself First, Then His Friends and Neighbors and Now Proposes to Cure the World.

JOHN A. SMITH, MILWAUKEE, WIS.

On the theory that "seeing is believing" John A. Smith of Milwaukee, wants everyone to first try his remedy for the cure of rheumatism, at his expense. That end, he proposes to distribute 15,000 free sample packages to all persons sending him their name and address. Mr. Smith had for years suffered all the agony and torture of rheumatism, tried all the remedies known, and yet utterly failed to find relief.

At times he was so helpless that he had to take morphine and after considerable doctoring with leading physicians, who were unable to help him, he gave up in despair. He began studying into the causes of rheumatism and after much experimenting and repeated failure, he finally found a remedy which cured him in a few days. The result was so beneficial to his entire system and was such a glorious escape from the clutches of rheumatism that he called his new found remedy **Gloria Tonic**. Those of his friends, relatives and neighbors who were subject to rheumatism were next cured and Mr. Smith concluded he would offer his remedy to the world. But he found the task a difficult one. Nearly everybody had tried a hundred or more remedies, just as he did, and they couldn't be made to believe there was such a thing as a cure for rheumatism. But an old gentleman in Seguin, Tex., Mr. Bertram, wrote him saying if Mr. Smith would send him a sample he would try it, but as he had suffered forty-one years and wasted a fortune on advertised remedies he wouldn't buy anything more until he knew it was worth something. The sample was sent and the results were astonishing. He was completely cured. This gave Mr. Smith a new idea and ever since that time he has been sending free sample packages of **Gloria Tonic** to

all who may apply. It cured H. Buchholz, 70 years old, of Norborne, Mo., after suffering 25 years. In Regina, N. W. Terr., Anton Bengert was laid up nine years. A sample of **Gloria Tonic** was the first relief he ever got and three boxes entirely cured him. Thomas Callahan of Harvard, Ill., suffered continuously, four years and was cured by Mr. Smith's remarkable remedy. At Indian Ford, Wis., Frederick Arnold aged 66 suffered 12 years. Nothing ever relieved her until she tried **Gloria Tonic**. She was cured completely. At Pittsburg, Ind., a druggist was cured after 33 years suffering. John Carston of Belton, Tex., had planned to give his wife a trip to Germany, but she was taken with an attack of rheumatism and the trip abandoned. But she tried a sample of **Gloria Tonic**, got some more, was cured and went to Europe rejoicing. She is a firm believer in **Gloria Tonic**. Mrs. Persohn of Amsterdam, N. Y., believes Providence directed her to Mr. Smith's remedy. She was nearly insane from the intense suffering from rheumatic pains and was entirely cured. Thousands of other instances could be related where this magical remedy has cured rheumatism. In case your druggist does not have it, it's well worth anybody's time to send their name and address to Mr. Smith and he will send a trial package of **Gloria Tonic** absolutely free of charge. If you have a friend, or acquaintance, a neighbor or relative suffering from rheumatism send for a trial package and give it a test. It is a remarkable remedy and there is no question but what it will cure any case of rheumatism no matter how severe or of how long standing. Send your name and address to John A. Smith, 220 Summerfield Church Building, Milwaukee, Wis.

NEWS FROM PARIS.

Modes and Manners of the Great French Capital.

Nothing goes to waste in Paris. A recent notice in one of the journals announces that the advertiser buys old false teeth. A French newspaper writer, having seen the advertisement, inquires, most suggestively: "What can be done with those? And how is it possible to have an easy mind?"

To draw the hair back from the face is now the fashionable way of dressing it, but it is kept still light and fluffy. Unfortunately the complete exposure of the forehead is not becoming to every one, and women whom the style does not suit would do best to retain a few curls in front or part the hair in the middle and wave it at each side.

The tendency of the mode toward the tablier effect in skirts—the front breadth being of different material or plaited,uffed or decorated in some individual way—

VELOURS COSTUME.

is significant of a future return of the overskirt. The plain skirt has had an exceptionally long reign, and few women are yet fully prepared to relinquish it, it is so graceful, becoming and comparatively light of weight.

Sashes, tied behind with long ends, in baby fashion, are coming to the front. They are only suitable for young girls and women, but are sometimes seen worn by older persons. Roman sashes, of exquisitely blended colors, with knotted fringe, are to accompany light spring and summer gowns, as well as evening dresses.

Today's cut shows a gown of old rose velours. The upper part of the skirt is shirred horizontally to form a deep yoke, except at the immediate back, which is left free. The close bodice fastens at the left side and has triple revers of white satin embroidered with pink. The plastron is shirred, like the skirt, while the sleeves have plaited epaulets of the embroidered satin. JUDIE CHOLLER.

LEE IS IN DISFAVOR.

(Continued from page 1.)

arm of Spain's service, and did not include Premier Galvez and his associates in the autonomous cabinet, who represent the new civil regime which Spain is seeking to enforce.

The matter came to the attention of Senor Dupuy de Lome, then Spanish minister at Washington, and although there were no protests the situation doubtless reached the state department, as suitable demands were made by Captain Sigbee of King on Dr. Congosto (the civil secretary general), Premier Galvez and his associates. There was like irritation over a dinner given by Consul General Lee to the officers of the Maine. The list of guests on that occasion is said to have omitted some of the Spanish naval officers, and to have included, quite conspicuously, the names of a number of American newspaper correspondents who were regarded by the Spanish officials at Havana as antagonistic to them. This also came to the attention of the officials here, but was not made the basis for any action, but rather of unofficial Spanish criticism of General Lee's general mode of procedure.

It has been understood by officials here that the feeling against General Lee has been smoothed over, and the request for his recall was for that reason in the nature of a complete surprise. There are circumstances, however, which clearly disclose the grounds for the recall. Since the Maine disaster a report has been circulated that General Lee held the personal opinion that the explosion was due to external cause. No official report of this character was ever sent to Washington so far as is known. The press dispatches from Madrid also disclose that General Lee is held accountable at the Spanish capital for the project of the purchase of Cuba by the United States from Spain, as well as for a general sentiment of sympathy toward the insurgents.

There is little doubt, however, that the main cause of Spain's action is the sympathy General Lee has shown for the Cuban sufferers. It is known that his active and open sympathy with the people who have suffered so greatly during the present insurrection, American citizens as well as native Cubans, has not been accepted by the Spanish officials in Cuba as an exhibition of disinterested officialism such as is expected of consular officers. There were complaints during General Weyler's ad-

ministration of his conduct, but never in full official form. As a matter of fact Spain requires no formal excuse for the dismissal of a consular officer according to international law.

But Consul General Lee is in one respect unique, in that he endowed with semi-diplomatic powers by the wish of our government and by the consent of the Spanish government. The request of the Spanish government for his recall may therefore be regarded as tantamount to a demand for the recall of an objectionable minister. There must be some substantial or satisfactory reason for such a demand in such cases and as those presented against General Lee probably were confined to the acts he has so far performed with the full sanction and approval of President McKinley, the demand was not entertained. Under such circumstances the incident would close unless Spain took the decisive step of insisting on General Lee's recall, and this falling, giving him his exequatur.

NEWS CAUSES GREAT EXCITEMENT.
Washington stirred up more than at any time since the Maine disaster.

Washington, March 7.—The news concerning General Lee aroused the deepest interest and no little excitement throughout Washington, and for the time being the usual quiet of Sunday evening was put aside. In hotel corridors, at the clubs, and in all public places it was the absorbing topic, and not since the Maine disaster was such widespread popular interest evinced in the Spanish situation. The announcement of the purpose of the government to send supplies to Cuba on naval vessels was made last Wednesday. Within twenty-four hours there were signs of excitement on the part of the Spanish government. At first this took the shape of a formal inquiry by the Spanish charge—Senor du Bose—as to the correctness of the report, the inquiry being couched in an incredulous tone.

Later, when the affirmation came, there was lodged, not a formal protest, but rather an insinuation that the movement of the naval ships would not be acceptable; that it would be construed into an act of active sympathy on the part of the government of the United States with the insurgents. But the president had satisfied himself that the course he had chosen, that of sending the supplies in a naval vessel, was the only one that promised sufficient and prompt relief. There was no time for polite diplomatic exchange of notes, when according to General Lee's advice people were perishing from hunger by

hundreds every day in Cuba, and the Spanish charge was so informed.

WARSHIPS ARE NOT TO BE USED.
So a Key West Dispatch Has It Now—Fern to Take the Supplies.

Key West, Fla., March 7.—The supplies for the starving Cubans will not be taken on the cruisers Montgomery and Nashville. It is understood that the dispatch boat Fern will perform the duty. The change of plan was ordered from Washington Saturday or Friday. A high naval official, in the course of an interview last evening, said: "The Fern is much better suited for such duties. I do know that the change of plans was brought about by Spain's demand. I am inclined to think it is the result of a suggestion from Key West. The Fern is only a tender to the fleet, but is still a vessel of the fleet and of this navy."

It is far better that these cruisers should not go to Cuba under the present conditions. I should not be surprised to learn that Spain had demanded the recall of Consul General Lee. It is only natural to suppose that she is anxious to seize upon any circumstance which she might consider would offset the Dupuy de Lome incident."

GENERAL DANIEL SICKLES' OPINION.
Spain Could Do More and Still Act Within Her Legal Rights.

New York, March 7.—General Daniel E. Sickles, who was minister of the United States to Spain from 1869 to 1874, during which period occurred the strained relations between that country and the United States over the Virgin Islands affair, said: "It is Spain's right to ask for General Lee's recall. When I was minister to Spain I was instructed to demand the recall of the Spanish consul general here and my request was immediately granted by the Spanish government. Spain would be justified today in demanding the recall of Consul General Lee on the ground that he is persona non grata simply."

"Is not such action at this time, following as it does close upon the De Lome incident and the Maine disaster, sure to precipitate war?" General Sickles was asked.

"Not at all. It is merely a diplomatic incident. President McKinley is at liberty to refuse to recall General Lee, and in that case Spain would be perfectly justified in handing him his passports on the single ground that he is persona non grata."

"Do you consider that this move on Spain's part puts this country nearer war than it ever was over the Virgin Islands affair?"

"Not at all. If anything, we were nearer war then than now. I do not regard the request as a casus belli, and it is not more than their right to demand that if we send supplies to these people they shall be sent by merchant vessels. The use of warships at such a time might justly be regarded as a hostile act on our part. Spain's right to demand that these supplies be sent by peaceful merchantmen cannot be questioned."

American Correspondents To Be Sent North Charged with Conspiracy.
Havana, March 7.—In addition to Henri Lane, the American correspond-

ent, Vicente Uardo Suarez, editor of La Republica, and eleven others have been arrested, making thirteen in all. Eight are in cell 47 and five in cell 46 at Cuban fortress, Henri Lane will be sent north on Wednesday. It is officially stated, from American sources, that two or more American correspondents will be required to return to the United States at the same time. The prisoners are charged with conspiracy. In all eighteen are implicated. Eleven, it is said, will be sent out of the country and seven to the Isle of Pines.

ALL TOOK A HAND.

Sodus People Deeply Interested in a Lawsuit.

All day Saturday an interesting lawsuit was in session at Sodus, the case of the People vs Irving Swain, charged with stealing liquor from Ed Buckman. The court room provided by Justice Cook was crowded all day. The prosecution was conducted by Attorney A. L. Hammond and the defense by Attorney Frank P. Graves.

A jury was selected which occupied all the forenoon and then the prosecution introduced a dozen witnesses, mostly minors, who testified that they had bought liquor of Swain and that he had cautioned them not to tell Buckman and not to come for it when Buckman was at home. Among the witnesses sworn for the people were: Percy Wright, Claud and Spencer Hill, Fred Donzey, Ray Phillips, Charlie Runyan and James Buckman. Ed. Buckman, the complaining witness, also testified.

Swain, the defendant, was sworn, and by his testimony the defense was outlined. He testified that the people's witnesses were mistaken and that Buckman had knowledge of the fact that he was disposing of liquor. The case was adjourned until Tuesday morning and it will probably be finished in half a day.

AN INNOVATION IN RAILROADING.

A Parlor-Cafe Car Now Running on Daylight Special of Illinois Central between Chicago and St. Louis.

The Illinois Central has substituted for the parlor car, formerly running on its day train between Chicago and St. Louis, a new composite parlor-cafe car, built for the Company at the Pullman Shops especially for service on its fast, vestibule, solid "Daylight Special" train to St. Louis. The parlor, in the Empire style, is finished in mahogany, with darker panels of the same, the latter being richly inlaid with marquetry composed of various shaded woods. Its furnishings include easy, luxurious revolving arm-chairs, upholstered with green frize plush. The ceiling overhead (in which are fixed brilliant Pintsch gas chandeliers of the latest pattern) are decorated in gold, and in color and design are in harmony with the floor beneath. The carpet is of the finest Wilton, with the plush and mahogany finish of the rest of the room. The cafe is in general design and color scheme in harmony with the parlor, and has tables and tables at which may be seated, and tables at which couples can dine a-la-carte. A complete kitchen adjoins the cafe, and meals will be served en route from a varied menu at reasonable prices; the cafe feature to be conducted in the same general way for patrons of the entire train as are the cafe cars on the Central running West out of Chicago, and which have proved so popular. The car also contains a gentleman's smoking room, in connection with which is a billiard room, from which cigars and liquid refreshments can be obtained. The billiard room is of substantial construction and of elegant finish. The features are particularly attractive for Springfield, Ark., travel, leaving Chicago for the run to St. Louis, and giving good station with trains.

WANTED—EXPERT MECHANICS IN machine and boat departments Truscott Boat company, St. Joseph

She Knows the Town.
Judge Nathan Goff of West Virginia has a sister famous all through the state for her remarkable brilliancy of mind and broad culture. Miss Goff possesses that rare quality of being able to appreciate a joke at her own expense.

The family home of the Goffs is in Clarksburg, a straggling city in the mountains of West Virginia not especially noted for anything except its muddy streets in winter.

Miss Goff is a frequent visitor to New York, and on one occasion she attended a reception at the house of a prominent bishop, given in honor of a clergyman who had recently accepted a charge in New York. It fell to Miss Goff's lot to entertain another equally prominent bishop whose diocese is one of the New England states and who grew enthusiastic in talking about the guest of honor. He dilated at length on his learning and oratory and closed his eulogium by saying:

"And you know, Miss Goff, the most remarkable thing about our friend is that he comes from a miserable little mudhole in West Virginia. Let me see. It is called"—and the bishop hesitated, trying to recall the place—"it is some place with a 'burg,'" the bishop finally added.

"Oh, yes," said Miss Goff, "Clarksburg! I live in that mudhole."—Cincinnati Commercial Tribune.

"The Greatest of These."

A genuine case of love of one little girl for another still smaller was seen on the east side a few days ago. A number of little girls were dancing gracefully and joyously in the street to the music of a hand organ played by an Italian. A reporter, who had listened and looked for some time with pleasure, called one girl to him, gave her a nickel and told her to give it to the musician. She sprang away joyfully to do it, but paused suddenly, hesitated and ran off to another girl, pathetic looking and weak. To this little thing she gave the 5 cent piece resigning to another the pleasure of rewarding the organ grinder for the fun they were having. The tot ran up to him with the rosiest smile she had worn for a week and said, "Dore!"—New York Commercial Advertiser.

NEW LIGHT IN MEDICINE

Power of the Specialist in Treating Grave Diseases.

His Advantage Over the General Practitioner—How the Best Treatment May be Obtained for an Insignificant Sum.

Even a layman, who never sees a medical paper, must marvel at the great advance the science of healing has made in the last few years. A decade has seen more advancement, more light, than all the seventeenth and eighteenth centuries.

This condition has been brought about very largely by the researches of specialists, who have made some particular organ of the body their special study.

How to provide the advantages of special treatment to the afflicted who have been unable to secure it, has been a problem many have tried to solve. That it is practicable has finally been demonstrated by H. H. Warner, the original proprietor of the world-famed Warner's Safe Cure.

Mr. Warner's years of experience in the treatment of kidney diseases led him to believe that equally good results could be obtained by offering the public special treatment for the several classes of disease to which mankind is liable. Since he severed his connection with the Warner Safe Cure Company, some five years ago, he has been working out his present plan, and has formed the Warner Nazaro Medicine Co.

He has completed arrangements with a number of the leading specialists of Greater New York, to give advice and treatment to people who could not otherwise avail themselves of their services. In this way special treatments will be prescribed for each class of disease, and special advice given to each patient.

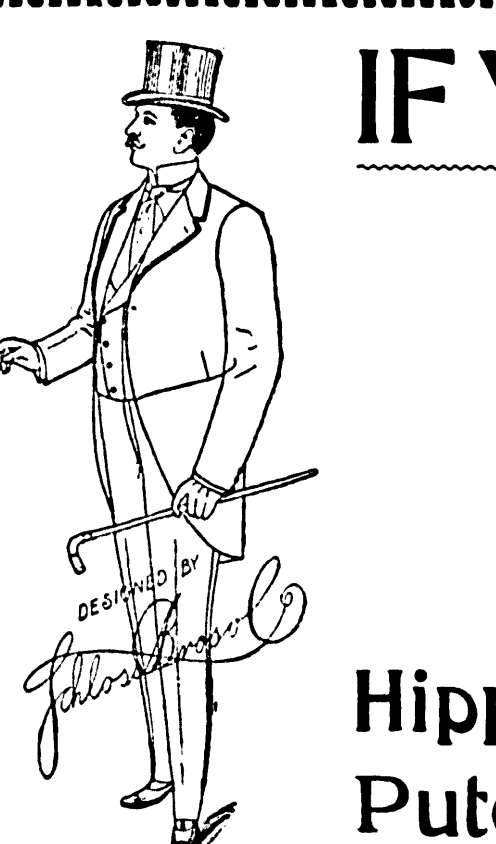

Among the diseases for which special treatment can be had are, scrofula and all blood and skin diseases; nervous prostration, insomnia, chronic headaches, and all nervous disorders, rheumatism, and gout; acute and chronic catarrhs; diseases and weaknesses of women; special diseases of men; indigestion and all stomach disorders.

Warner Nazaro Medicine Company's Consulting Parlors. The Board of Specialists Diagnosing Cases and Prescribing Medicines that Cure.

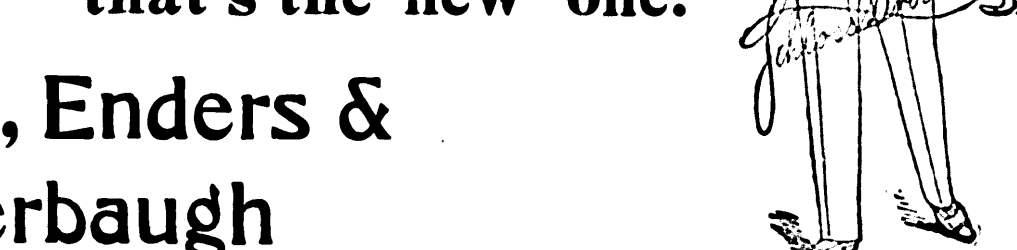

This plan of special treatment places within the reach of all, the experiences of men who have devoted years of study to their respective specialties. Many diseases that have baffled the skill of the general practitioner can thus be successfully treated. Chronic cases are especially desired. The company invites correspondence from every one suffering from any ailment from which they have been unable to secure relief. Its physicians are among the ablest in the profession, and have been marvelously successful in their practice. Do not delay. Disease does not stand still. You are daily, hourly drifting farther from the possibility of a restoration to health. The method of obtaining relief is simple. Write out a history of your case, making the statement as complete as possible. Send this to the Warner Nazaro Medicine Company, 230 Broadway, New York City, when a complete diagnosis of your case will be made by a competent specialist. If you prefer, a symposium blank will be sent you free on application, which will greatly assist you in describing your case. The well-known business ability of Mr. Warner, and the fact that he has done so much for suffering humanity in the past, are ample assurances of the genuineness of this, his latest and greatest work. Write today.
